Abridged Frospectus.

THE Company (which was duly incorporated as a Company Limited by shares on the 17th day of August, 1885) has been formed for the purpose of constructing, equipping and working a line of Tramway between a terminus adjoining St. John's Place in Garden Road and Victoria Gap, Hongkong.

With this object in view, the Company has acquired from the Hon. P. RYRIE and Mr A. FINDLAY SMITH the right to construct and maintain such a Tramway by an Indenture dated the 12th day of September. 1885, and made between the Hon. P. Rykie and A. FINMAY SMITH of the one part and the Company of the other part, whereby these gentlemen granted and assigned to the Company the right to construct and maintain the Tramway No. 8 in the Tramways Ordinance 1883, and thereby authorised to be made, and all the privileges might desire to exercise the same in re-

the Company. The Public are already alive to the necessity for this undertaking, and are aware of the steadily increasing traffic between the City of Victoria and Victoria Gap, which calls for, and promises to make remunerative, a speedy, economical, and thoroughly effective and safe means of transit to the Peak. This it is the intention of the Company to provide by placing the Gap within seven minutes' ride from

the City level. The general merits of the project have been made known by the local newspapers. and it will therefore be sufficient to state that the Company has taken over a wellmatured scheme which has received, during upwards of four years, careful consideration from its Promoters, with the assistance of the best professional advice. One of the Promoters, it may be mentioned, has recently inspected most of the existing mountain tramways in Europe and America.

The construction of the Tramway is now being proceeded with under the superintendence and management of Mr J. F. BOULTON, Assoc. M. Inst. C.E., and Mr JAMES ANDERSON, on a principle embracing all the most recent improvements and en-suring absolute safety in working.

In addition to the income from passenger traffic already assured by the great number of residences now existing at the Peak, a considerable revenue is confidently expected from the facilities of access to the mountain offered to visitors and residents. The Company also anticipates an additional income from the overhill traffic to Aberdeen and Pokfulum, and the Carriage of Building Materials, Coal, and General

Goods and Parcels. It is in contemplation to have wellappointed Chairs under the Company's control at the Gap to convey passengers from thence to any point on the mountain at fixed rates, and also, if necessary, Chairs The Ordinances under which the Company will construct this Tramway are Ordinances Nos. 6 and 18 of 1883. The only agreements in existence affecting the undertaking are:--An agreement dated the 20th day

of April 1885, whereby Mr Anderson was appointed Manager for the con-struction of the Tramway and for the other purposes therein mentioned. The burden of this Agreement has been taken over by the Company. This Agreement is open to inspection at the Office of the Com-An Agreement dated the Twelfth

HONGKONG, TUESDAY, OCTOBER 6, 1885.

parations are being made to invest the opening of the local Parliamentary Session with an importance which is regarded by some as befitting the occasion. There can be little question that the unsuccessful efforts hitherto made to import a greatness into our little Colonial Legislature which does not belong to it, have tended to lessen rather than increase the respect which generally attaches to its proceedings. Hong kong residents would be the last to take exception even to a certain amount of ceremonial, or to any smount of decorum, in the opening and closing of the council. But the dignity- of the Legislative body has more than once been seriously endangered by the emptiness of the pomp, and, it must also be added, by the extremely egotistical and gaseons nature of the addresses, that right-thinking and sensible men now say in plain Angle-Saxon what they think of all this mummery. There is, however, a more serious objection to this nonsense than that advanced on the score of mere silliness. Little barm might follow such small displays save 3.40 r.m. Late Letters may be posted this, that the estimation in which the Representative of Her Majesty is held might be lessened, were there not a dauger present of the independence of the Council being tampered with. It is now matter of common knowledge that the Members' Reply to the Governor's elaborated Address is drafted by the Governor himself, and the manner in which that high official can sound his own proises, even at times when silence would be imperative with other men, need here be merely alluded to in order to be fully understood. Of div. course, the form of adjournment is got s through, and a Committee is appointed to reply to the Address, and it may be that members have even had the courage to suggest alterations and amendments upon the text of the ready-made document so kindly and considerately drawn for their use. This mockery of a Reply to the Address is a thing which must be set aside. Were the Members of Council unable to frame a reply for themselves, even then the system of framing one's own landations would be one that should be followed with the greatest care. As it is, the supply of a cut-and-dry draft to be used b the members is anything but compliment to their intelligence, while it is calculated seriously to hamper their

> H. E. feeling of thankfulness is not so active THE body of a Chinese female child was us it has been. Besides this fact, must be borne in mind that the administration of Sir George Bowen has no lutely supplied many good grounds fo thankfulness; and the keenest curiosity will be generally felt to learn the been impossible. points in the Reply to the Address, to be given to-morrow afternoon, upon which the stereotyped thanks are to be offered to the President. There are several matters upon which thanks would be very much out of place, even in a document of a conventionally cut- | ced in Saturday's Government Gasette. Capand-dry description. For instance, up - tain Lowis, of the Buffs', will, however,

overflow with gratitude on account of any superfluous energy expended by the Governor on behalf of the trade of this Colony during the Franco-Chinese coprisals His Excellency declined to move a loot in this direction, and the paper blockade of Pakhoi was ruled to be out of his sphere and within that of H. B. M.'s Minister at Peking. The action of the lative Council of Hongkong for a Bill to Governor in connection with the Defences of the Colony was little more than inaction forced into action by the vigorous measures of anofficial mejubers and the Champer of Commerce. For the Colony. A copy of the Draft Bill is this, and for the glossed versions of the attached. List of Contributions to the China Fire Defences given by His Excelency, the unofficial members of the Council have The Band of the Buffs will play at the no reason whatever to return thanks. as the feelings suggested thereby are not those of gratitude. It may be that NEW VEGETABLE SEEDS Governor Bowe 's notions of the commercial and mercantile interests of this Fest March .. Tannhancer Wagner Colony are not the same as thuse generally entertained by this community. On that point it would be unsafe to dog-TOOTH are of the best varieties and the mutise. His action, however, in regard to the Quarantine Rules - which has been so strongly objected to as to call forth a spirited appeal to the Secretary of State-clearly shows that the mercantile interests of this community are not the chief objects of his solicitude.

For the unofficial members to burst into any grateful strain on this subject, in their reply to the President's Address, would be a proceeding which would not unly be eminently insincere, but would bring the whole system of so-called contempt. We do not auticipate a display of this kind, because the shrewd men of business who represent the public voice in the Council are not in the habit of stuttitying themselves; and any such in the face of the letter to the Secretary of State would be a simple abandonment Yokohama. of a manly and intelligible position. The condition of the Departments formed a subject of rejoicing lust year, as follows - We are glad to understand that the condition of the several depart ments of the public service is satisfactory. Even this ground of commendation can now hardly be said to exist, fter the revolutions of the last year. What then remains upon which a preun of praise and thankfulness can be founded? It is a difficult question to answer. We can do no more than recommend the first paragraph of last years

generally entermined r garding the present Administration. The paragraph reads as follows:--May it please Your Excellency.-1. We, the mem ers of the Legislative Council of Hongkong, in Council assembled, desire to thank Your Excellency for your speech and to assure you of our cordial co-operation in the labours and duties of the session which has now been opened,

A LIBEL suit will come on for mention in

the Supreme Court of Hongkong on Friday, the 9th inst, at 10 o'clook in the forenoon. The plaintiff in the case is Mr John Leonard Hart Milner, teacher of the Commercial School of Macao, and the defendant Mr J. J. da Bilva e Souza, printer and publisher of the Echo da China, a newspaper printed in the Portuguese language and published in this Colony. The plaintiff claims from the defendant the sum of \$1,000 for damages for that the defendant printed and published in the said newspaper of the 21st Septemberlast, a false, scandalous, malicious and defamatory libel by way of a letter, under the signature M. The letter referred to describes an incident in the school rontine in which one of the scholars, being threatened by the teacher with violence, struck a blow with his fiet on the face of the latter, and a struggle then ensued in which the better-half of the teacher took a part. In its issue of the 5th instant, the Echo da China states in a leading article that, prompted by a desire to discuss the affairs of Macao and for the interest of the institutions of that Colony, it could not remain indifferent as regards an establishment like the Commercial School, on which hangs the welfare of the country; and under the impression that the facts narrated in the letter were true, it was published. Residing in Hongkong, it depends entirely on its correspondents for news, and The Servion Skuptschins has voted the it is no wonder that sometimes the informstion received is not correct. But now that it finds that the facts narrated in the letter are faise, it cannot but hasten to correof the misstatement, and to do entire justice to Mr Milner. It gives Mr Milner ample apology for what had been stated in 28: John Knoz, Chip hase Castle, the correspondence against him, regretting ist the same time that through bad information it had occasion to give offence to that

On the day after his brother's death, he had some conversation with the combinations of Berlin, Vienna and St. plaintiff in her house. Plaintiff was crying, was to support her children. He was guarantee for a promissory note which his brother had granted to a Chinaman for \$750. (The promissory note was here put i and read. It was dated 19th March, 1885, and was repayable in 19 months). Three instalments were paid. \$630 were due when his brother died, and he was responsible for the amount. He had an interview with the plaintiff regarding this indebtedness. Plaintiff said there were a number of people pressing her. Defendant assured her she need not be afraid, as he was the only person responsible for the promissory note, and he had to pay \$40 a month. Mr Wotton also took objection to the plaintiff bringing two separate suits in the Summary Jurisdiction. It seemed to him one claim had been split into two for that

Mr Holmes assured his Lordship that the two suits arose out of separate causes. The large claim was for salary during the agreement, and the claim for \$100 was for professional services rendered outside hi

The suits were allowed to stand. Mr Holmes thou opened plaintiff a case He said the claim consisted of three parts the first claim was for salary due to plaintiff at the time of his dismissal, months, also provided for under the agreement. The whole difference in the present instance had arisen in consequence of de fendants claiming the right to dismiss the plaintiff under sec ion 5 of his agreement whereas plaintiff says he is entitled, if dismissed at all, to claim his dismissal under clause 4. Mr Holmes here read clauses 4 and 5. Under clause 4, the General Managers of the Company have the right to dismiss the plaintiff whenever they choose to do so by giving three months notice: and under clause 5 they have the right to dismiss him forthwith if he be guilty of any impropriety, neglect of business, disobedience of lawful orders and commands, or drunkenness Mr Holmes then went on to say that Mr Gritton, in compliance with the

directions of the Company, attended a meeting at which he was requested to set furth his views with regard to the working of the staff and the general management of the Glass manufactory. What took place at that meeting would, he presumed, be laid before his Lordship in evidence. Soon after this a letter was received by Mr Gritton requesting him not to attend further at the factory, and on the 16th September, he received a letter formally signed by Messrs certain negligence and impropriety, they had He also complained of not having received assurdly bring mine. I ask you why do I terminated his engagement. In that letter there was no mention whatever of any special reason for terminating his agreement, norded they mention whether it was under clause 4 or 5. Further than that they gave him notice as if di-missing him at once under clause 5, but at the same time they allowed him three months salary, as if in accord nee with clause 4. Under these circumstances plaintiff was left in doubt as to their intentions, and he at once claimed, if he were to be dismissed at all, to be dismissed under clause 4. Plaintiff was not a man who in the first instance had sought employment, but he had been sought for by defendants and engaged as a skilled workman, as a the 16th the following letter was written man who thoroughly understood the manufacture of glass. He was a practical man, having a full knowledge of his work, and knowing what a glass factory ought to be, and how it ought to be carried out. Plaintiff came here with that full knowledge, and naturally assumed that he would be allowed to exercise it, and be what he is described, superintendent of the works and manager the business. There may have been during the time he was employed some anxiety on his part, and Mr Holmes believed there was, to see the works properly carried out, and if the plaintiff had erred in any way it was through his great desire to see the thing properly done, both for the benefit of the Company and for his own credit. So far as he really knew he was dismissed under the terms already mentioned. Mr Holmes then tioned that a Mrge amount of correspondence had passed b tween himself and
